

Get It Now

Get It Now is provided by Verizon Wireless.

With a Get It Now-capable handset, you can get direct downloads of popular software applications. Take advantage of enhanced graphic applications such as games, location-based services, and productivity tools. Personalize your handset with ringtone downloads and digital photo-sharing tools. Application availability depends on your handset and there is no monthly fee to use Get It Now.

You pay per application at the time of download and each application has specific pricing. Airtime charges apply while browsing for and downloading applications on your phone. Some applications incur airtime charges during use.
